

WG 9 Liaison Report

WG9 has no current projects that affect the work of WG15. WG9 continues to be interested in seeing Ada language bindings for the POSIX standards.

My recent report to WG9 concerning Ada language bindings progress indicated that work needs to be done to bring the POSIX.5 standard up into sync with the latest amendments to POSIX.1 and that the number of individuals in PASC interested in working on this has been dropping. The possibility of shifting the Ada language bindings work to WG9 was mentioned by some WG9 members.
