

Profile Project Editor's Report

Project Name(s):

POSIX OSE Supercomputing (15287.01)

POSIX Realtime Profiles (15287.02)

Reporting period:

2000 year to Feb 2001

Activity during the reporting period for each project:

The POSIX Realtime Profiles were reportedly published in ISO (although I have not seen a copy) and look forward to receiving this document. A request was made to SC22 for a subdivision of work for the POSIX.13a and 13b and this was approved after JTC1 balloting in Feb 2001. POSIX 1003.13a is Project Number 22.15287.02.01 and POSIX 1003.13b is Project Number 22.15287.02.02.

POSIX OSE Supercomputing is awaiting Project Editor action for DoC. I have learned that the IEEE has revoked the POSIX.10 sponsorship due to process time limits. Although this does not immediately affect the ISO, it is not clear to me that there is a strong support to continue with this project.

Interpretation requests received during the reporting period:

None for either document

Do you have a retained source copy of each document and have you provided an archive copy to the WG15 Web site administrator or Convenor. For each document, state the latest version and location of each retained source.

Yes for both

Additional comments:

None
